

## Myology Institute Seminar Series Fall 2019 Schedule

Date	Speaker	Title
August 15	Justin Percival, PhD Associate Professor; Molecular and Cellular Pharmacology University of Miami	Soluble guanylate cyclase stimulator therapy for Duchenne Muscular Dystrophy
Sept 5	Lance Denes BMS Graduate Student; Dr. Eric Wang Mentor Department of Molecular Genetics and Microbiology University of Florida	RNA transport and the sarcomere
Sept 19	Bryant Chase, PhD Professor, Biological Science Florida State University	Troponin: Does it only mediate Ca <sup>2+</sup> -activation of thin filaments in striated muscle?
Oct 3	Ashley Smuder, PhD Assistant Professor, Department Applied Physiology and Kinesiology University of Florida	Chemotherapy-induced muscle wasting: Causes and preventative strategies
Oct 17	Rebecca Willcocks, PhD Assistant Research Scientist; Department of Physical Therapy University of Florida	Lessons learned from using muscle MRI in a multi-center setting
Nov 7	Elisabeth Barton, PhD Professor, Applied Physiology and Kinesiology University of Florida	Mechanosensors in muscle
Dec 5	Christina Pacak, PhD Assistant Professor, Department of Pediatrics University of Florida	The Impact of LGMD on Mitochondrial Function
